What is AFCEA?

AFCEA International is a non-profit membership association serving the military, government, industry and academia as an ethical forum for advancing professional knowledge and relationships in the fields of communications, IT, intelligence, and global security.

Our Mission: To promote the ethical exchange of information and facilitate knowledge sharing and education

Our Vision: To be a leading IT, communications and electronics association for professionals in government, industry and academia in south central Alaska.

Our Goals

1. Partnership: Develop relationships that foster an environment of collaboration
2. Professional development and knowledge sharing: Provide opportunities for professional development and knowledge sharing focused on government, industry and academia (a network of professionals)
3. Promote scholarship and mentoring opportunities which facilitate community outreach and enhances the value of AFCEA membership
4. Grow and maintain our membership within the local community

Benefits of what we do

1. Maintain a local chapter (focus on local community)
2. Host 7-8 chapter luncheons per year to enhance peer knowledge exchange and networking across sectors (government, industry, academia)
3. Planning to host 1-2 evening socials annually
4. Work with local school district(s) regarding scholarship and mentoring opportunities
5. Provide for volunteer and potentially workforce development opportunities
6. AFCEA publications: SIGNAL Magazine, International Journal, Annual Source Book Directory, SIGNALConnections e-newsletter, Annual Security Directory
